air transport, aerospace
defence & space

members' products and
services directory

introduction

I am delighted to welcome you to SBAC's new directory of members' products and services. As part of our drive to continuously improve the services we offer our members, we are producing this directory in addition to the electronic data available on our website www.sbac.co.uk. Through these pages, and on-line, you will find a trusted source of supply for all your aerospace needs.

Membership of SBAC continues to grow. This directory provides a listing of 234 member companies. This compares with 184 member companies listed in the directory published in July 2006.

The UK aerospace industry is the largest in the world, outside the USA. All the companies listed here, both great and small, have a vital role to play in this dynamic and globally successful sector. SBAC members' interests encompass aerospace manufacturing, maintenance and through life service, professional advice, academic research, training and education. They provide aerospace products and services across all levels of the supply chain.

SBAC is the UK's national trade association representing companies supplying civil air transport, aerospace defence, homeland security and space. Together with its regional partners, SBAC represents over 2,600 companies, assisting them in developing new business globally, facilitating innovation and competitiveness and providing regulatory services in technical standards and accreditation. SBAC's mission is to create and sustain the conditions in the UK for member companies to compete and prosper in the global marketplace.

SBAC is at your service and invites you to contact us to discuss your needs.

Sally Howes

Director General

Unit 0, Stratton Business Park, London Road, Biggleswade, Bedfordshire. SG18 8QB United Kingdom

Tel : +44 (0)1923 205599 Fax : +44 (0)1923 205588
info@advancedmetals.com www.advancedmetals.co.uk

ISO 9001

Advanced Metals International (AMI) was formed in 1989 and is a leading stockholder and supplier of metals and plastics into aerospace, defence, oil and gas, and other high technology industries around the world. AMI's expertise lies in making the highest quality materials available in a fast, cost effective and convenient package. AMI offers a complete supply solution for all of their customers from small, niche, engineers right through to the biggest multi-national enterprises.

Business type(s): Materials

AEI Systems Limited

1 Kings Ride Park, Ascot, Berkshire. SL5 8AR United Kingdom

Tel : +44 (0)1344 636200 Fax : +44 (0)1344 636205
info@airquip.co.uk www.airquip.co.uk

NATO/MoD Approved, Testing & Certification

AEI Systems Ltd (AEIS) is a high quality defence orientated 'Original Equipment Manufacturer' (OEM), specialising in small to medium calibre weapon systems and supply of military aircraft structures and components. AEIS applies aerospace quality standards across its entire air, land and sea product range as part of the company's culture. AEIS is a manufacturer and supplier of military aircraft spares, weapon systems (including design, development, test, evaluation, maintenance and refurbishment), ring/pintle/pedestal mountings, cupolas, hatches and doors.

Business type(s): Equipment/Systems, Services

AEROid Limited

Woodland View House, Leeds Road, Huddersfield, West Yorkshire. HD2 1YY United Kingdom

Tel : +44 (0)1274 40 4044 Fax : +44 (0)800 073 555
info@AEROid.co.uk www.aeroid.co.uk

ISO 9001:2003

AEROid Limited provides integrated RFID (Radio Frequency Identification) solutions to the aerospace sector. When appropriate, AEROid designs bespoke hardware and writes appropriate software. All hardware is manufactured by third party partners or specialists and in some cases, therefore, the company acts as a value added reseller of such things as RFID 'tags', reads and antennae.

Business type(s): Equipment/Systems, Services

Aeromet International Plc

Eurolink Way, Sittingbourne, Kent. ME10 3RN United Kingdom

Tel : +44 (0)1795 415 000 Fax : +44 (0)1795 415 015
sales@aeromet.co.uk www.aeromet.co.uk

AS 9100

Aeromet International Plc is a world leader in light alloy casting and sheet titanium products, supplying parts to the world's major airframe, engine and OEM manufacturers. Aeromet can produce aluminium investment castings up to 1.5 metre cubed by both conventional and Sophia high property processes, and aluminium sand castings up to 500kg and magnesium castings up to 250kg. Aeromet has the largest selection in the world of presses for Super Plastic Formed, Hot Formed or Diffusion Bonded sheet metal products that allow parts to be produced up to 2 metres square or 4 metres x 1 metre.

Business type(s): Component, Facilities, Materials, Platform, Services

Agent Oriented Software Limited

Wellington House, East Road, Cambridge, Cambridgeshire. CB1 1BH United Kingdom

Tel : +44 (0)1223 308 000 Fax : +44 (0)70 9229 8753
www.agent-software.co.uk

Agent Oriented Software Limited (AOS UK) was established in Cambridge (UK) in 2000. AOS UK has a collaborative relationship with Cambridge University's Institute of Manufacturing, and this collaboration aims to provide advanced agent-based manufacturing and logistics systems to UK and European industry. Agent Oriented Software Limited is an SME specialising in autonomous software systems, based upon intelligent agent technology. AOS is a stakeholder in the Defence Technology Centre for Systems Engineering for Autonomous Systems (SEAS), where it is working with Rolls-Royce plc on distributed power systems management.

Business type(s): Services

Air & Ground Aviation Limited

Aviation House, London Road, Shirleywich, Staffordshire. ST18 0PN United Kingdom

Tel : +44 (0)1889 271 777 Fax : +44 (0)1889 270 756
office@airandground.com www.airandground.com

IIP Accredited, ISO 9001

Air & Ground Aviation Limited is a supplier and distributor of aircraft parts and aviation related support equipment, with a vast inventory available for JIT solutions. In addition, the company has a comprehensive sourcing system to complement its in-house inventory and is recognised throughout the industry as being a significant partner in key programmes.

Business type(s): Equipment/Systems, Facilities, Services

The Total Service Provider

AEROMET INTERNATIONAL PLC

over 30 years experience...

Aeromet is a specialist in the production of aluminium investment castings, aluminium and magnesium sand castings, SOPHIA high property investment castings, Super Plastic Formed, Hot Formed and Diffusion Bonded sheet titanium products.

Parts can be supplied in datum machined, fully machined and treated or in JIT/KIT formats.

Aeromet is approved by and supplies to many of the worlds leading airframe, engine and O.E.Ms. and is accredited with NADCAP and AS 9100 third party approvals.

Business type(s): Component, Facilities, Services

AmSafe Bridport Ltd

The Court, Bridport, Dorset. DT6 3QU United Kingdom

Tel : +44 (0)1308 456 666 Fax : +44 (0)1308 456 605
sales-asb@amsafe.com www.bridport-aviation.com

AS 9100, AS/EN9100, BS EN ISO 9001:2000, CAA Approved, Customer Approved, EASA Approved, ISO 9001, OEM Approved

AmSafe Bridport is the world leader in the design, manufacture and support of engineered, aerospace textile solutions for the commercial aerospace and defence industries. Although the company only began designing and manufacturing nets for the aviation industry in the early 1960s, its heritage in rope and net production can be traced back to the 13th Century. Part of the AmSafe group of companies, AmSafe Bridport's products range from cargo pallet nets and tie-down straps, which are used to restrain cargo in an aircraft hold, to helicopter under-slung load equipment for the transportation of military supplies. Each of AmSafe Bridport's products have one common, unifying feature: they are all products whose primary objective is safety or restraint. This is AmSafe Bridport's field of expertise, and why AmSafe Bridport counts amongst its customer base over 80% of the top 100 airlines as well as the leading airframe manufacturers including Airbus and Boeing.

Business type(s): Component, Equipment/Systems, Facilities, Platform, Services

Business type(s): Facilities

Conidia Bioscience Limited

Silwood Park, Buckhurst Road, Ascot, Berkshire. SL5 7TA United Kingdom

Tel : +44 (0)1491 829142 Fax : +44 (0)20 7691 9523
www.conidia.com

Conidia Bioscience Ltd manufactures and sells the Fuelstat rapid test kit for the detection of microbial contamination in aviation fuel tanks. This revolutionary immunoassay test determines, within 10 minutes, the level of contamination based on the presence of the jet fuel fungus known as Hormoconis resinae or by its old name Cladosporium resinae. The kit is now in use worldwide with well over 100 operators. Fuelstat is marketed by our global distributor, Satair A/S of Denmark. Satair has major offices in Copenhagen, Singapore and Atlanta and representatives in many other countries. Conidia Bioscience Ltd also provides a full consultancy service to the oil supply and aviation industry based on its associated, UKAS accredited laboratories in CAB International. This service covers microbial contamination in all environments, not just fuel tanks and fuels. Conidia Bioscience Ltd is based in Ascot, near Heathrow.

Doncasters Limited

28-30 Derby Road, Melbourne, Derby, Derbyshire. DE73 1FE United Kingdom

Tel : +44 (0)1332 864900 Fax : +44 (0)1332 864888
info@doncasters.com www.doncasters.com

The Doncasters Group is a leading international manufacturer that supplies precision components and assemblies to the aerospace, power generation, specialty automotive and medical orthopaedic industries. Doncasters excels in working with alloys and metals that are difficult to shape and form. The company's unparalleled range of products and processes has been developed to offer customers a broad, vertically integrated capability. Core manufacturing processes include precision casting, forging, fabrication, machining and production of superalloys. Key aerospace products manufactured include fan, compressor and turbine airfoils, rings and casings, structural castings, combustion and airframe fabrications and exhaust assemblies. The company offers well-developed supply chain integration solutions, delivering complex assemblies and engine-ready components to its customers. Doncasters operates from sites across Europe, the USA and Mexico and has institutionalised lean manufacturing and Six Sigma principles throughout its operations.

IFA provide 21st century advanced manufacturing solutions, forging partnerships with suppliers and customers. Our specialist open die forging, rolled ring and precision bar product manufacturing capability offer fast track supply of unmachined and semi-finished components. Raw material is stocked in ingot and billet form to produce rings, flats, squares, rounds and shafts. IFA also has NADCAP heat-treatment, cutting, grinding, sawing, peeling, machining and non-destructive testing/PMI inspection capability. We also offer fast turn round, high quality hire-work/tollwork of customer owned materials. Accreditations include AS9100, NADCAP, Honeywell, Rolls-Royce, Westland, Messier-Dowty, ITP.

Business type(s): Facilities

Infosys Technologies Limited

14th Floor, 10 Upper Bank Street, Canary Wharf, London. E14 5NP United Kingdom

Tel : +44 (0)20 7715 3300 Fax : +44 (0)20 7715 3301
Sudhir_c@infosys.com www.infosys.com

Pioneering a new generation of strategic offshore outsourcing, Infosys Technologies Limited (NASDAQ: INFY) provides consulting and IT services to clients globally, as partners to conceptualise and realise technology driven business transformation initiatives. With over 52,000 employees worldwide, Infosys uses a low-risk Global Delivery Model (GDM) to accelerate schedules with a high degree of time and cost predictability.

Ingenia Technology Limited

Portman House, 43-45 Portman Square, London. W1H 6HN United Kingdom

Tel : +44 (0)870 351 2584 Fax : +44 (0)870 351 2585
info@ingeniatechnology.com www.ingeniatechnology.com

Ingenia Technology Limited (ITL) was founded in 2003 with its headquarters in London. The company is an emerging international company in the authentication and verification of papers, plastics and metals, as used in documents, ID cards and product packaging. The technology known as Laser Surface Authentication (LSA) is a revolutionary technology for authenticating documents, packaging, plastics, metals and ceramics. LSA does not require the addition of any security measure such as hologram, special inks or markers or RFID to the item, but instead, it uses low cost laser to scan the surface of the item and quickly and affordably measure the inherent surface characteristics of the item which represents a unique 'fingerprint' of the product.

UK Anticorruption Forum

Interchange Solutions is a specialist risk consultancy, training and outsourcing company. We deliver an innovative and profitable business approach to companies with a commitment to mitigating corruption risks in the commercial, sales and procurement areas. By mitigating this risk, Interchange helps companies, of all sizes and operating in all sectors, to seize market opportunities they might otherwise avoid, in countries where corruption is perceived to be high. We provide third party due diligence, abcSure® risk assessment, independent internal investigation and enhanced training in risk/raid management and corporate communications. It is Interchange's proven expertise in understanding the way our clients conduct their business, our ability to relate well to their management and employees, and adherence to our underlying principle of doing what's right for their business, that makes us recognised leaders in best practice anti-corruption management.

AS 9100, AS/EN9120, CAA Approved, ISO 9002, JAR Approved

RF Saywell Limited was founded in 1946 by Ron Saywell. The company initially provided spares for the Tiger Moth, Rapide and other Gypsy engined aircraft. With RF Saywell's experience and diversity, the company has expanded to become a leading supplier to the world's major and regional airlines. Growth has allowed us to introduce regional offices in the USA, Canada and Singapore. The company's main offices house what is probably the largest combined aircraft spares inventory in the world. On 15 July 2002, after 57 years of aerospace spares support, the company changed their trading name to Saywell International, to reflect the rising status in regard to their global operations and growth in international markets.

tssuk@trelleborg.com www.tss.trelleborg.com

Trelleborg Sealing Solutions offers cost effective sealing solutions to the Global Aerospace Community. Our product offering includes sealing systems for:- Flight Control Actuation, Landing Gear, Aircraft Engines, Aircraft Canopies, Fuel Systems, Doors and Hatches, Wheel and Brake and Aerodynamic Seals.To better support the needs of the Aerospace Industry we have aligned our business to provide a support infrastructure covering an aircraft programme's entire lifecycle. Our business concept is to deploy design and technical expertise during the development phase of a programme and our global network to support the programme throughout the operational life.

Business type(s): Component, Materials, Platform, Services

TRW Conekt

Stratford Road, Solihull, West Midlands. B90 4GW United Kingdom

Tel : +44 (0)121 627 4242 Fax : +44 (0)121 627 4243
conekt.enquiries@trw.com www.conekt.net

Conekt is the external consultancy arm of TRW Automotive, generating new ideas and applying science and technology in product development, manufacture and validation. Based on almost 50 years of R&D experience, Conekt provides key services in engineering, knowledge and technology across a number of industries including automotive, aerospace and defence. Utilising the skills of its in-house Engineering and Services division, Conekt is in the unique position to offer a complete engineering service from concept design and development through prototype and validation testing to low volume manufacture.

Business type(s): Services

TWI Limited

Granta Park, Great Abington, Cambridge, Cambridgeshire. CB21 6AL United Kingdom

Tel : +44 (0)1223 899 000 Fax : +44 (0)1223 892 588
twi@twi.co.uk www.twi.co.uk

TWI Limited, the operating arm of The Welding Institute, is one of the world's foremost independent research and technology organisations. Based at Great Abington near Cambridge since 1946, TWI provides industry with engineering solutions in structures incorporating welding and associated technologies.

Business type(s): Facilities, Materials, Services

Tyco Electronics UK Limited

Faraday Road, Dorcan, Swindon, Wiltshire. SN3 5HH United Kingdom

Tel : +44 (0)1793 528 171 Fax : +44 (0)1793 572 516
vcollier@tycoelectronics.com www.tycoelectronics.com

As the largest electronic component supplier in the world, Tyco Electronics is well positioned with a wide and unequalled product portfolio to service the Aerospace, Defence and Marine markets. Our products are backed with expertise in engineering, design, prototyping, manufacturing, quality assurance, agency approvals, logistics, programme management, materials science, tooling, test equipment, metals, plating, electromagnetic shielding and environmental protection.

Business type(s): Component, Equipment/Systems, Facilities, Materials

Ultra Electronics Holdings PLC

417 Bridport Road, Greenford, Middlesex. UB6 8UA United Kingdom

Tel : +44 (0)20 8813 4444 Fax : +44 (0)20 8813 4351
information@ultra-scs.com www.ultra-electronics.com

Ultra Electronics is a group of specialist businesses designing, manufacturing and supporting electronic and electromechanical systems, sub-systems and products for defence, security and aerospace applications worldwide. Ultra, which employs 3,000 people in the UK and North America, focuses on high integrity sensing, control, communication and display systems with an emphasis on integrated information technology solutions. Ultra's products and services are used on aircraft, ships, submarines, armoured vehicles, surveillance and communication systems, airports and transport systems around the world. Ultra plays an important role in supporting prime contractors by undertaking specialist system and sub-system integration using the combined expertise of the Group businesses.

Business type(s): Component, Equipment/Systems, Services

Unipart Logistics Limited

Unipart House, Cowley, Oxford, Oxfordshire. OX4 2PG United Kingdom

Tel : +44 (0)1865 778 966 Fax : +44 (0)1865 383 763
lyn_mcdowell@unipart.co.uk www.unipartlogistics.com

Unipart Logistics is the logistics and business services division of the Unipart Group of Companies and, as one of Europe's leading service providers of logistics, provides comprehensive integrated logistics to the telecommunications, automotive, information technology, retail, aerospace, rail, industrial and defence sectors. Unipart Logistics adds value to clients' demand chains, improving customer service and reducing inventories. Logistics solutions are driven by the demands of customers; products and services are 'pulled' through a series of interlinked processes, a Demand Chain, rather than 'pushed' through a supply chain.

Business type(s): Services

Universal Steels and Aluminium Limited

Unit 7 Cranfield Road, Lostock Industrial Estate, Bolton, Greater Manchester. BL6 4SB United Kingdom

Tel : +44 (0)1204 669 356 Fax : +44 (0)1204 669 358
gary@usanda.co.uk www.usanda.co.uk

AS 9100, AS/EN9100, AS/EN9120, BS EN ISO 9001:2000, Customer Approved, ISO 9001, ISO 9002, NADCAP, OEM Approved, Testing & Certification

Universal Steels and Aluminium Limited, with over 10 years of experience in the aerospace metals industry, has become one of the UK's leading metal stockholders in the aerospace industry. The company stocks a wide range of material specifications and offers an extensive range of material profiling, machining and handling options.

Business type(s): Component, Facilities, Materials, Services

University of Glasgow

Aerospace Engineering Department, James Watt Building (South), University of Glasgow, Lanarkshire, Scotland. G12 8QQ United Kingdom

Tel : +44 (0)141 330 3575 Fax : +44 (0)141 330 5560
douglast@aero.gla.ac.uk www.aero.gla.ac.uk

The University of Glasgow provides undergraduate, postgraduate and CPD training including; avionics, aeronautical engineering and aerospace engineering. The University also provides research groups in flight dynamics, low speed aerodynamics, aircraft design and structures, space system engineering, air traffic management and avionics, computational fluid dynamics, and aerospace and marine systems and control. The University has close links with mechanical, electronic and power engineering experimental wind tunnel facilities.

Business type(s): Services

Valtech Limited

120 Aldersgate Street, London. EC1A 4JQ United Kingdom

Tel : +44 (0)20 7014 0800 Fax : +44 (0)20 7014 0801
jonathan.cook@valtech.co.uk www.valtech.co.uk

Valtech Limited is a global application development and systems integration company headquartered out of France with offices in the US, India and the UK. Valtech's aerospace expertise is built by domain experience acquired during years of work in civil and military aerospace and avionics systems. The company's abilities cover development, independent verification and validation, certification and documentation services and EEM/PDM. Valtech works with customers to identify business needs and translates them into effective, workable solutions.

Business type(s): Facilities, Services

Virtual Interconnect Limited

Hillington Park Innovation Centre, 1 Ainslie Road, Hillington Park, Glasgow, Scotland. G52 4RU United Kingdom

Tel : +44 (0)141 585 6450 Fax : +44 (0)141 585 6301
info@virtual-interconnect.co.uk www.virtual-interconnect.co.uk

Located within the High Tech Innovation Centre, Virtual Interconnect Limited is a knowledge based company utilising advanced 3D modelling techniques to design complex wire harness assemblies. By generating parametric and associative Virtual Prototypes using 3D CAD Tools in conjunction with proprietary data extraction software, both overall project costs and product time to market are significantly reduced. Virtual Interconnect's bespoke electromechanical design processes, 2D/3D and 3D/3D, reduce Product Lifecycle Management and Supply Chain costs by exploiting the associativity of 3D models to minimise the time to change, while simultaneously providing error free, supplier oriented Product Data Sets.

Business type(s): Component, Services

W & J Tod Limited

8 Cropmead, Crewkerne, Somerset. TA18 7HQ United Kingdom

Tel : +44 (0)1460 77666 Fax : +44 (0)1460 78001
t.hitchings@tods.co.uk www.tods.co.uk

BS EN ISO 9001:2000

Tods has over 50 years experience in manufacture in composite materials, with 25 of those in the aerospace sector. Tods designs and builds composite solutions in thermoplastic and thermoset materials. In-house 3-D modelling (Catia) and FE analysis capability. Structural, non-structural - interiors/fuselage/wing - commercial and military; rotary wing and fixed wing composite components.

Business type(s): Facilities, Materials

W.L. Gore & Associates (UK) Limited

Mariner Drive, Dundee Technology Park, Dundee, Scotland. DD2 1JA United Kingdom

Tel : +44 (0)1382 561 511 Fax : +44 (0)1382 561 007
gsmith@wlgore.com www.gore.com

ISO 9001, OEM Approved

W. L. Gore & Associates is comprised of approximately 6,000 associates in 45 locations around the world. Annual revenues top \$1.5 billion. Their fluoropolymer products provide innovative solutions throughout industry, in next-generation electronics, for medical products, and with high-performance fabrics. W.L. Gore creates next generation cable assemblies and components for the electronics industry, sets the standard for outerwear comfort and protection, solves difficult industrial problems with innovative materials and technology, and Gore medical products work in harmony with the body's own tissues to restore normal body function.

Business type(s): Component

Waer Systems Limited

Eight The Quadrant, Marlborough Road, Lancing, West Sussex. BN15 8UF United Kingdom

Tel : +44 (0)1903 768 010 Fax : +44 (0)1903 768 022
dsnelson@waersystems.com www.waersystems.com

Waer Systems Limited provides world-class Replenishment Management Systems (RMS) to help manufacturers and suppliers gain optimal profitability from their supply chains, as well as increase their overall control and visibility. Waer Systems specialises in designing and implementing lean techniques and processes into the distribution and warehouse environments with a focus on the aerospace and defence industries.

Business type(s): Services

Walker Precision Engineering

4 Fullarton Drive, Glasgow East Investment Park, Glasgow, Lanarkshire. G32 8FA United Kingdom

Tel : +44 (0)141 641 9641 Fax : +44 (0)141 646 2060
enquiries@walkerprecision.com www.walkerprecision.com

AS/EN9100, BS EN ISO 9001:2000

Walker Precision Engineering is a forward looking technology led contract manufacturing company. Established in 1979 the company has risen to the challenges of changing market conditions. From small beginnings the company now employs over 150 skilled personnel over three sites. The company services markets worldwide, covering a diverse customer base in engineering cutting edge sectors.

Weston Aerospace

124 Victoria Road, Farnborough, Hampshire. GU14 7PW United Kingdom

Tel : +44 (0)1252 544 433 Fax : +44 (0)1252 371 216
sales@westonaero.com www.westonaero.com

AS 9100

Weston Aerospace, a key division within the Esterline Sensors Group, is a market leader in sensors and accessories for aero-engines, industrial gas turbines and airframes. Underpinning this drive for growth is a commitment to their people, and through them to quality, cost-effectiveness and delivery.

Business type(s): Component, Services

Weston EU Limited

Station Road, Foulridge, Colne, Lancashire. BB8 7LE United Kingdom

Tel : +44 (0)1282 863 993 Fax : +44 (0)1282 865 834
info@westoneu.net www.westoneu.net

AS 9100, ISO 9001, OEM Approved

Weston EU Limited supplies complex machined parts for the aerospace engine sector. The company utilises fully integrated management systems through their S.A.P. R3 enterprise Resource Planning system. Weston EU has a comprehensive range of sophisticated 3-D modelling CAD/CAM systems and a diverse range of state of the art CNC machine tools approaching 100 in number. These include: turning capability ranges from Sliding Head to 6-axis lathes and 2 metre diameter VTLs; milling resources range from small high speed 3-axis machines up to large 4 metre, 5-axis pendulum configuration machines; grinding capabilities include creep feed and 5-axis super-abrasive machines.

Business type(s): Platform

Wheelabrator Group Limited

Impact Finishers, 107–109 Whitby Road, Slough, Berkshire. SL1 3DR United Kingdom

Tel : +44 (0)161 928 6388 Fax : +44 (0)161 929 0381
uk-info@wheelabratorgroup.com www.wheelabratorgroup.com

Designing, delivering and supporting surface preparation equipment on a global scale, the Wheelabrator Group is formed from the world's largest, most experienced and trusted brand names in surface preparation and finishing. Wheelabrator Group uses all the different technologies ranging from air blasting, wheel blasting, wet blasting, ultrasonics, washing, mass finishing, peening or painting.

Business type(s): Facilities

Wragge & Co LLP

55 Colmore Row, Birmingham, West Midlands. B3 2AS United Kingdom

Tel : +44 (0)870 903 1000 Fax : +44 (0)870 904 1099
mail@wragge.com www.wragge.com

Wragge & Co LLP is a leading UK law firm and has the resource to handle the largest transactions. Wragge & Co has a market leading specialist aerospace and defence sector team. Wragge & Co acts for a wide range of businesses across the industry.
